

EXHIBITION GUIDE

Fuorisalone Milan

Cassina's Floe Insetl comprises a three-seater sofa and a pouffe that can be used as standalone elements as well as end units, and a chaise-longue available in two sizes, all of which can be combined with one another. The unique shape of the sofa is emphasised by the detailed diagonal stitching that follows and highlights its many sides. The MB1 Quartet is an update of Mario Bellini's first design for the company, 932, 50 years after its creation. Visit: www.cassina.com

Midsummer's Bella chair is designed for the bedroom and is available in leather or fabric. It has a cushion with two flowers embroidered on it. The Lowboy table also has a Tallgirl option. Visit: www.midsummer-milano.com

'A technological platform, magically suspended in the air like a flying carpet, with cushions added to enclose the borders, and finally, legs to ground it,' is how Piero Lissoni describes SAKÉ, his first design for B&B Italia. Visit: www.bebitalia.com

Paola Lenti's Agio is a system of large modular seating with headboards that can be adjusted horizontally and vertically. Visit: www.paolalenti.it

Seats of yearning

Amid Fuorisalone's installations and events, there were plenty of commercial products to be found

Republic of Fritz Hansen's Lune is a modular sofa based on its Ro and Fri chairs. Visit: www.fritzhenzen.com
